WORK PERMITS

- European Union: Italian citizen — authorized to work across the EU without sponsorship. (Passport/ID issuance for documentation as needed.)
- Brazil: Citizen — authorized to work.

PROFILE

Mainframe Systems Specialist with over 20 years of experience in IBM z/OS environments, specializing in system administration, performance tuning, and batch processing optimization. Proven expertise in managing complex enterprise workloads, maintaining high system availability, and driving modernization initiatives. Adept at working with cross-functional teams to ensure secure, stable, and efficient mainframe operations supporting critical business applications.

WORK EXPERIENCE

IBM

z/OS JES Tech Support

2024 - PRESENT

- JES2 Technical Support Engineer responsible for a worldwide Salesforce case queue, ensuring timely, high-quality support for enterprise z/OS environments. I monitor incoming cases, triage and prioritize by impact, perform dump and log analysis, reproduce issues, and deliver fixes or coordinated escalations across product and systems teams. I keep customers in EMEA/APAC/AMER informed with clear status updates, RCAs, and runbook guidance, driving SLA compliance and reducing repeat incidents.

IBM

z/OSMF Core Support

2019 - 2024

- Installed, configured, and maintained z/OSMF components and plug-ins to support system administration, workflow management, and performance monitoring.
- Assisted users with z/OSMF interface navigation, access issues, and workflow execution.
- Documented procedures, troubleshooting steps, and onboarding guides for operations and support teams.

Citigroup (Brazil and Warsaw, PL)

Mainframe QA Tester Analyst (Offshift)

2010 - 2017

- JES2 Technical Support Engineer responsible for a worldwide Salesforce case queue, ensuring timely, high-quality support for enterprise z/OS environments. I monitor incoming cases, triage and prioritize by impact, perform dump and log analysis, reproduce issues, and deliver fixes or coordinated escalations across product and systems teams. I keep customers in EMEA/APAC/AMER informed with clear status updates, RCAs, and runbook guidance, driving SLA compliance and reducing repeat incidents.

CERTIFICATIONS

- IBM MAINFRAME DEVELOPER - Issued by IBM 2025
- Deep teaching Solutions - Issued by Coursera 2025
- Agile With Atlassian Jira - Issue by Course 2025

Procwork (outsourced for IBM)

Mainframe Batch Operator / Production Support Analyst /
Knowledge Transfer Support

2004 - 2010

- Supported mainframe production for internal teams and enterprise clients, leading outsourcing transitions (Sara Lee & Hanes Brands, ACE Insurance, SunTrust Bank) through due diligence, knowledge transfer, and training; managed daily z/OS batch cycles across multiple LPARs; triaged job abends, system alerts, and performance issues by analyzing JCL and logs to minimize downtime; provided on-call coverage and coordinated fixes with developers and system programmers; drove root-cause and preventive actions to improve stability; documented operational procedures, trained new team members, and served as client-facing POC to ensure SLA compliance and clear stakeholder communication.

EDUCATION

UNIP — Universidade Paulista

B.S. Information Systems (2019–2020) — program not completed

Universidade Presbiteriana Mackenzie

Undergraduate program starting January 2026 • Duration: 2.5 years • Expected completion: mid-2028
